

ZVI DOV ROTH ACADEMY of Yeshiva Rambam

Cell Phones, and Photo or Video Imaging Devices

Students are not permitted to have cell phones turned on in school except during their lunch period. Any such device, which is not turned off, will be confiscated for an indefinite period. The device can only be retrieved by a parent or at the discretion of a member of the Administration. Cell Phones are not to be used anywhere in the building.

At no time may students use cameras or any other photo or video imaging devices in any area of the Yeshiva which may invade or compromise an individual's (staff or student) privacy and/or dignity. The use of such devices within the Yeshiva for legitimate activities must have written authorization from a member of the Administration. **Students who violate this policy will face consequences that may include suspension and the possibility of expulsion.**

I am aware that if I am caught with one of the above mentioned devices out during school hours it will be confiscated and will only be returned to my parent/guardian at the discretion of the Administration.
